“Jeff and his team were always there when we needed them. He answered every phone call and returned every call in a timely manner. Any issues that arose with the insurance company he was right there and always solved the problems to our satisfaction. He was always there with his positive thinking and always told us there was a light at the end of the tunnel when we got discouraged. He will fight for you and always be there for you and as he has become to us, he will be your friend.”
